Subject: Statement

NAU values diversity and inclusion and has taken a recent social media post by a group of NAU students seriously. We have involved a number of resources to work with the students involved including a meeting with our Dean of Students and our Director of Inclusion. As an institution of higher education, we see this as an opportunity to educate our students about the importance and values of diversity and inclusion. The students recognize the seriousness of their actions, have removed the post and apologized
